

What's New in Adobe Connect

Learn about the latest offerings in Adobe Connect. This article summarizes the new features and enhancements.

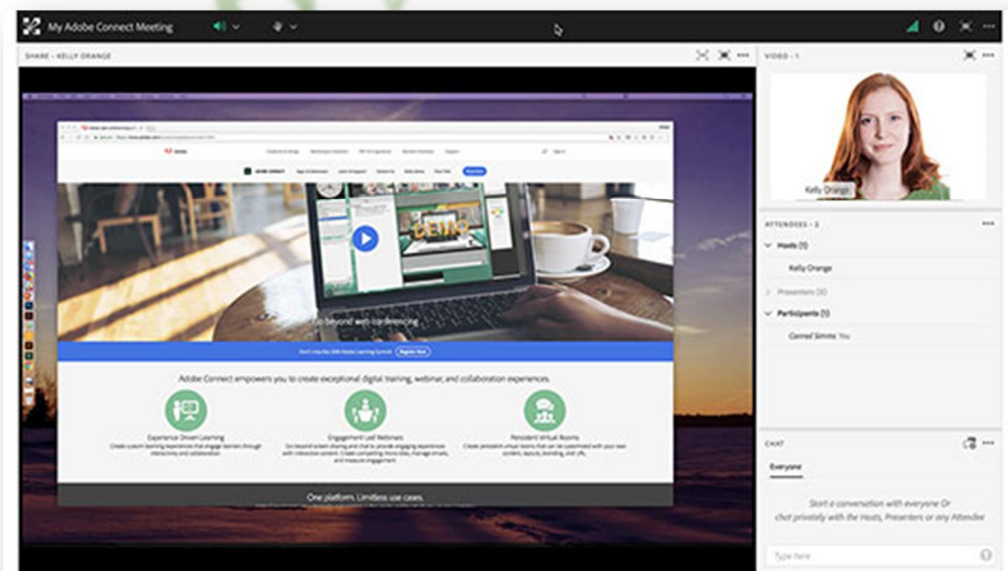

Adobe Connect is a web conferencing solution for web meetings, e-learning, and webinars. It powers mission critical web conferencing and virtual classrooms across desktops and mobile devices, improving collaboration, and boosting productivity. The sections below summarize the new features and enhancements available in the various releases of Adobe Connect.

[We are incredibly excited to announce Adobe Connect 10](#)

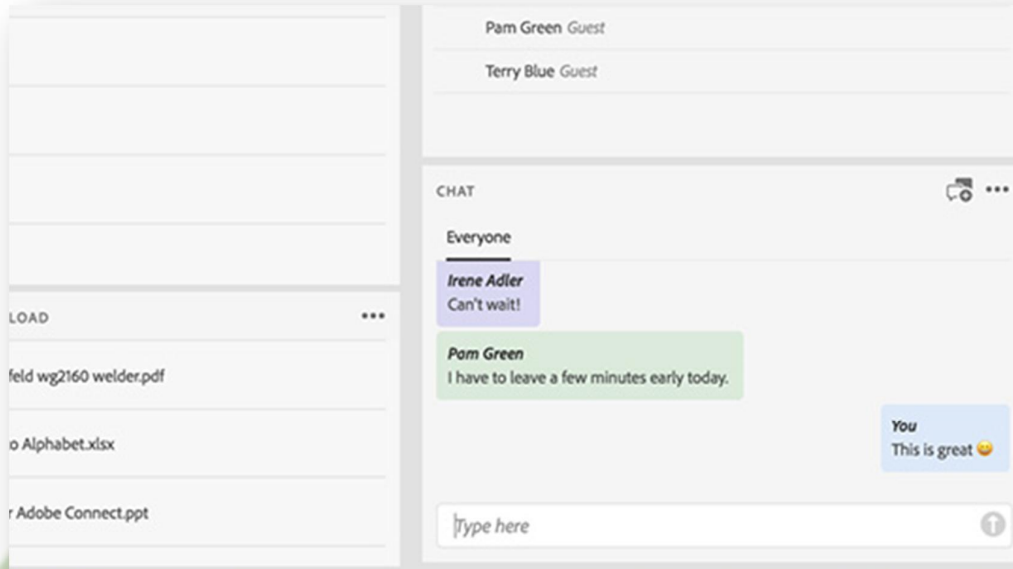

New HTML Client for Participants

- Nothing to download or install - eliminate barriers to entry
- Supported by modern browsers including Chrome, Firefox, Edge, and Safari
- Greater accessibility including support for screen readers

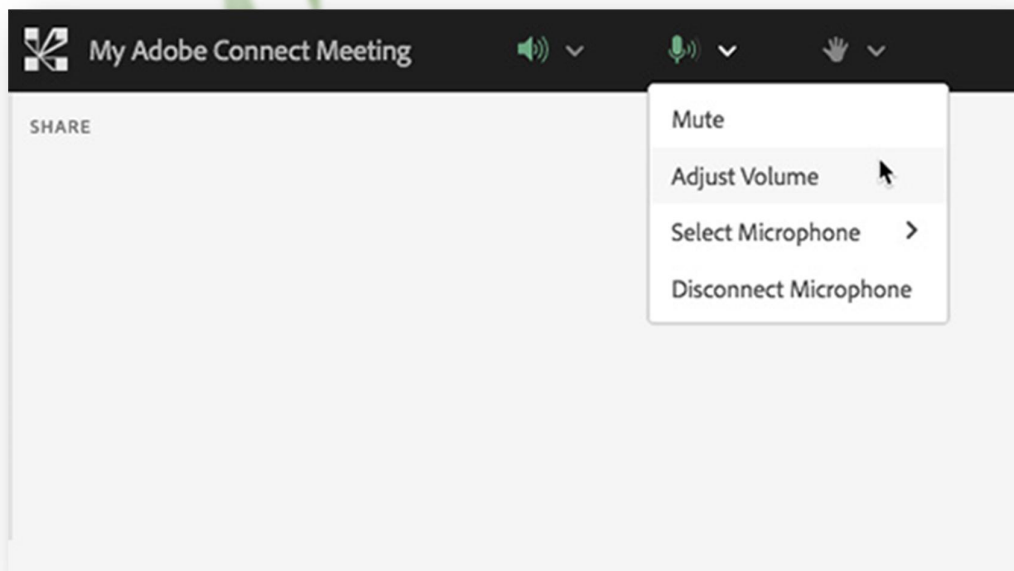

New User Interface

- Modern design elements
- Incredibly fast and easy to use
- Enables participants to interact with chat, polls, Q&A, status options, and more

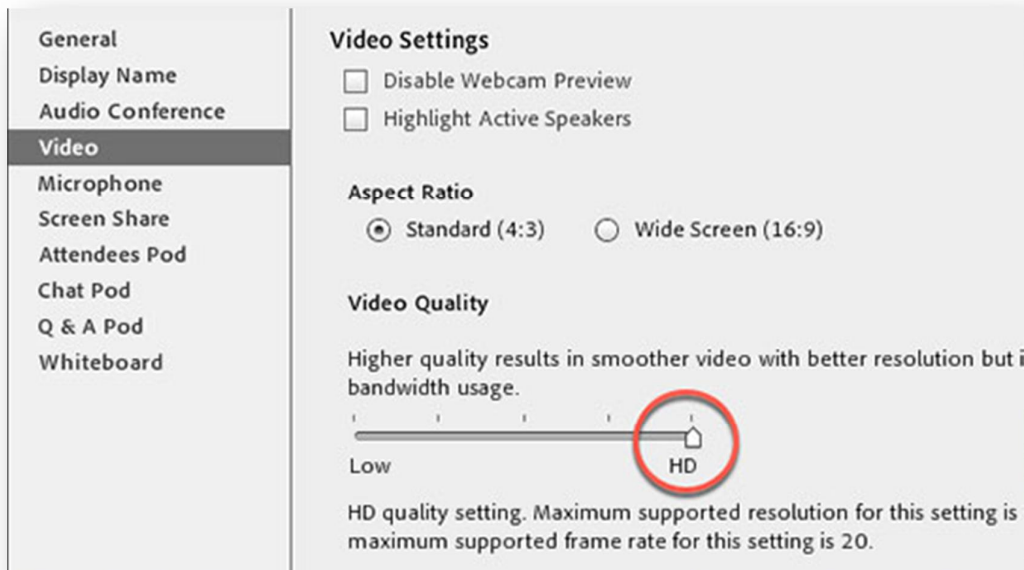

New Audio workflows

- Microphone support for participants using the HTML client
- Simplified workflows for VoIP and telephony

HD Video

- Broadcast video in high definition at 720p
- Video scales dynamically to conserve bandwidth

Out-of-the-box Single Sign On

- Authenticate users with SAML-2.0 Identity Providers such as Okta
- Improve the workflow of joining an Adobe Connect meeting
